Entry Level Software developer with the ability to learn quickly.

RELEVANT SKILLS

- Javascript (ES6)
- Jquery
- React.js
- HTML
- CSS
- Sass
- C++
- Ruby on Rails
- PostgreSQL

WORK EXPERIENCE

10/2016 to Current

Rails Developer Intern

Euro Team Outreach – L'viv, Ukraine

Bug fixes and feature development

SIDE PROJECTS

Invasion:

A game based on Risk, played on a map of North America. 90 territories with up to 8 players, including AI players.
Javascript version: https://github.com/life4ants/Invasion
Built entirely in plain old Javascript, HTML, and CSS.
Rails version: https://github.com/life4ants/Invasion-rails
Built with Ruby on Rails and React.

Conquest:

A combat game played on a map of North America. Built with React.js and Twitter Bootstap. Beautiful design, ease of use. Great UX. Good display of my skills. https://github.com/life4ants/conquest
